The Journal of Rheumatology Volume 7

SUBJECT INDEX

Pages 1-934 and Supplement 6, 1980

A

Achilles tendinitis
Achilles tendinitis associated with chondrocalcinosis, 82

Acid phosphatase
metabolic response during early stages of surgically-induced OA in mature beagles, 788

Acromegaly
variation in plasma and urinary inorganic phosphate and pyrophosphate in normal subjects and in patients with acromegaly or OA, 365

Acute bursitis
intrabursal pressures in the olecranon and prepatellar bursae, 570

Adjuvant arthritis
immunologic mechanisms of the tube leukocyte adherence inhibition assay in adjuvant-induced disease in rats, 801

Adjuvant-induced disease
the leukocyte adherence inhibition assay in adjuvant-induced disease in rats, 293

Allied health professional personnel
continuing medical education in rheumatology of AHP professional laboratory personnel, *(editorial)* 1

Alternative pathway
alternative pathway complement activation in RA, 453

American Rheumatism Association
Introduction to the Symposium on Systemic Lupus Erythematosus, Northeast Region Meeting, the American Rheumatism Association, Boston, MA, 1978, 390

Amyloidosis
SAA amyloid protein levels in amyloid-prone chronic inflammatory disorders. Lack of association with amyloid disease, 724

ANA tests
characterization and comparison of commercially available antinuclear antibody kits using single pattern index sera, 339

Animal arthritis model
histopathogenesis of bovine serum albumin-induced arthritis in the rabbit, 13

Ankylosing spondylitis (AS)
AS with unusual spinal deformity: a case report, 919
comparative study of benoxaprofen and ibuprofen in AS, suppl 139
genetic heterogeneity in primary AS, 383

Antibodies to native DNA
Crithidia Luciliae assay for antibodies to native DNA in procainamide-induced lupus erythematosus, 544

Anti-DNA
pulmonary dysfunction in SLE: prevalence classification and correlation with other organ involvement, 187

Anti-DNA antibody
predictive value of anti-DNA antibody and selected laboratory studies in SLE, 843

Anti-DNA, Farr method
comparison of three assays for anti-DNA with three assays for the measurement of the role of complement in SLE in adolescents, 660

Anti-DNA, hemagglutinating
comparison of three assays for anti-DNA with three assays for the measurement of the role of complement in SLE in adolescents, 660

Anti-DNA, Millipore filter
comparison of three assays for anti-DNA with three assays for the measurement of the role of complement in SLE in adolescents, 660

Antigen-induced arthritis
antigen-induced arthritis: an immunohistologic study of articular tissue and synovial fluid using the horseradish peroxidase technique, 596

Antiinflammatory drugs
simultaneous assessment of four nonsteroidal antiinflammatory drugs in RA using a simple and rapid trial design, 857

Antimalarials
analysis of treatment terminations with gold and antimalarial compounds in RA, 153

Antinuclear antibodies
Clq binding in serum in juvenile rheumatoid arthritis, 665
protein-caloric malnutrition and SLE, 178

Antinuclear antibody
antinuclear antibody-negative SLE: loss in body fluids, 547

Aortic insufficiency
cardiac abnormalities associated with RA: aortic insufficiency requiring valve replacement, 375

Aplastic anemia
eosinophilic fasciitis and aplastic anaemia, 730

Arthritis
articular complications of jejunoileal bypass surgery, 65
hairy cell leukemia and vasculitis, 895
Jaccoud's syndrome. A nosographic entity associated with SLE, 169
lupus-like syndrome due to ibuprofen hypersensitivity, 379
pathological plicae of the knee mistaken for arthritis, 573
pneumococcal arthritis complicating gout, 907
Arthritis in antiquity
osteoarthritic knees in a pre-Columbian ceramic figure, 381
Arthropathy
psoriatic arthropathy and crystal-induced synovitis, 213
Arthus reaction
antigen-induced arthritis: an immunohistologic study of articular tissue and synovial fluid using the horseradish peroxidase technique, 596
Arylsulfatase
metabolic response during early stages of surgically-induced OA in mature beagles, 788
Aspirin
comparison of naproxen, indomethacin and aspirin in OA, 711
double-blind comparison of aspirin and pirprofen in the treatment of RA, 865
long-term efficacy and safety of benoxaprofen: comparison with aspirin and ibuprofen in patients with active RA, suppl 76
long-term treatment of symptomatic OA with benoxaprofen. Double-blind comparison with aspirin and ibuprofen, suppl 89
total and free salicylate concentrations in juvenile rheumatoid arthritis, 717
Auranofin
oral chrysotherapy in RA: minimum effective dose, 160
pharmacokinetics of gold following administration of auranofin (SK&F D-39162) and myochrysine to rats, 820
studies of the intestinal metabolism of oral gold, 633

B

B lymphocyte alloantigen
RA and B lymphocyte alloantigen HLA-DRW4, 9
Back disorders
rheumatic disorders in the Swedish population and health care system, 877
Bacterial antigens
articular complications of jejunoileal bypass surgery, 65
Behçet's diagnosis
combined use of HLA-B5 and the pathergy test as diagnostic markers of Behçet's disease in Turkey, 206
Benoxaprofen
benoxaprofen administered once a day: determination of optimum dosage schedule, suppl 61
benoxaprofen – dose-range studies using quantitative thermography, suppl 48
benoxaprofen in the treatment of OA – a comparison with ibuprofen, suppl 125
benoxaprofen: once a day vs twice a day in patients with RA or OA, suppl 68
comparative study of benoxaprofen and ibuprofen in AS, suppl 139
comparative study of benoxaprofen and ibuprofen in OA in general practice, suppl 132
comparative pharmacology of benoxaprofen, suppl 5
crossover comparison of benoxaprofen and naproxen in OA, suppl 116
crossover comparison of benoxaprofen and naproxen in RA, suppl 109
dose-range studies of benoxaprofen compared with placebo in patients with active RA, suppl 54
effects of benoxaprofen and indomethacin on platelet function and biochemistry, suppl 27
gastrointestinal microbleeding: comparisons between benoxaprofen and other nonsteroidal antiinflammatory agents, suppl 36
long-term efficacy and safety of benoxaprofen: comparison with aspirin and ibuprofen in patients with active RA, suppl 76
long-term safety of benoxaprofen, suppl 100
long-term treatment of symptomatic OA with benoxaprofen. Double-blind comparison with aspirin and ibuprofen, suppl 89
pharmacokinetic studies of benoxaprofen after therapeutic doses with a review of related pharmacokinetic and metabolic studies, suppl 12
pharmacokinetics and acceptability of benoxaprofen following rectal administration, suppl 20
prostaglandins and, suppl 1
Beta-2-microglobulin
Beta-2-microglobulin in synovial fluid of RA, 555
Beta-thromboglobulin
connective tissue activation XIX. Plasma levels of the CTAP-III platelet antigen in RA, 814
Bicycle riding
AS with unusual spinal deformity: a case report, 919
Bid
benoxaprofen: once a day vs twice a day in patients with RA or OA, suppl 68

Bleomycin
bleomycin-induced scleroderma, 651
Blood gold level
oral chrysotherapy in RA: minimum effective dose, 160
Bone marrow-granulocyte precursors
inhibition of human bone marrow-granulocyte precursors by serum from patients with Felty's syndrome, 275
Bone marrow transplantation
progressive systemic sclerosis-like syndrome after bone marrow transplantation. Clinical, immunologic, and pathologic findings, 56
Bone metabolism
investigation of the metabolic activity of bone in RA, 469
Bone scintigraphy
joint imaging in regional migratory osteoporosis, 237
Bronchogenic carcinoma
reversal of hypertrophic osteoarthropathy after chemotherapy for bronchogenic carcinoma, 93

C

C-3 activation products
comparison of three assays for anti-DNA with three assays for the measurement of the role of complement in SLE in adolescents, 660
C-3 concentration
comparison of three assays for anti-DNA with three assays for the measurement of the role of complement in SLE in adolescents, 660
C3c,d
Clq binding in serum in juvenile rheumatoid arthritis, 665
Calcium pyrophosphate crystals
calcium pyrophosphate crystal formation in aqueous solutions, 609
Calcium pyrophosphate dihydrate
calcium pyrophosphate crystal formation in aqueous solutions, 609
Calcium pyrophosphate dihydrate crystal deposition
calcium pyrophosphate dihydrate crystal deposition, *(editorial)* 5
Calcium pyrophosphate dihydrate crystal deposition pathogenesis
calcium pyrophosphate dihydrate crystal deposition, *(editorial)* 5
Calcium pyrophosphate solution chemistry
calcium pyrophosphate crystal formation in aqueous solutions, 609
Cartilage
idiopathic chondrolysis — an immunopathologic study, 694
metabolic response during early stages of surgically-induced OA in mature beagles, 788
Cartilage erosions
erosive candida arthritis in a patient with disseminated candidiasis, 911
Cell-mediated cytotoxicity
absence of cell-mediated cytotoxicity to muscle cultures in polymyositis, 671
Cell-mediated immunity
cell-mediated immune responses in patients with recurrent arthritis following rubella immunization, 225
cell-mediated immune responses of synovial mononuclear cells in Reiter's syndrome against ureaplasmal and chlamydial antigens, 751
Central nervous system lupus
central nervous system lupus — diagnosis and treatment, 405
Chemotherapy
reversal of hypertrophic osteoarthropathy after chemotherapy for bronchogenic carcinoma, 93
Chikungunya virus
Chikungunya viral arthropathy: a clinical description, 231
Childhood systemic lupus erythematosus (SLE)
SLE in the younger patient: survival studies, 515
Chlamydial antigen
cell-mediated immune responses of synovial mononuclear cells in Reiter's syndrome against ureaplasmal and chlamydial antigens, 751
Chondrocalcinosis
Achilles tendinitis associated with chondrocalcinosis, 82
Chondrolysis
idiopathic chondrolysis — an immunopathologic study, 694
Choroid plexus
Immunoperoxidase staining of the choroid plexus in SLE, 645
Chrysotherapy
efficacy and toxicity of retreatment with gold salts: a retrospective review of 25 cases, 474
fulminant colitis complicating gold therapy, 479
Circulating immune complexes
cell-mediated immunity in psoriatic arthritis, 218
circulating immune complexes in recurrent polyserositis (familial Mediterranean fever, periodic disease), 886
Clinical trials
simultaneous assessment of four nonsteroidal anti-inflammatory drugs in RA using a simple and rapid trial design, 857
Clq binding
comparison of three assays for anti-DNA with three assays for the measurement of the role of complement in SLE in adolescents, 660

C1q binding assay
C1q binding in serum in juvenile rheumatoid arthritis, 665
Coexistence
coexistence of gout and RA: case reports and a review of the literature, 316
Colchicine
colchicine: its use as a suicidal drug by females, *(editorial)* 124
Collagen
collagen accumulation by dermal fibroblast cultures of patients with linear localized scleroderma, 130
idiopathic chondrolysis – an immunopathologic study, 694
Collagen diseases
megadose corticosteroid therapy in SLE, 486
Collagen disorders
dimension of collagen disorders, *(editorial)* 594
Commercial kits
characterization and comparison of commercially available antinuclear antibody kits using single pattern index sera, 339
Comparative pharmacology
comparative pharmacology of benoxaprofen, suppl 5
Comparison study
double-blind comparison of aspirin and pirprofen in the treatment of RA, 865
Complement
predictive value of anti-DNA antibody and selected laboratory studies in SLE, 843
Computerized thermography
benoxaprofen – dose-range studies using quantitative thermography, suppl 48
Connective tissue activation
connective tissue activation XIX. Plasma levels of the CTAP-III platelet antigen in rheumatoid arthritis, 814
Connective tissue disease
eosinophilic fasciitis: report of a case with features of connective tissue disease, 536
Continuing medical education
continuing medical education in rheumatology of AHP professional laboratory personnel, *(editorial)* 1
Coombs' positive anemia
lupus-like syndrome due to ibuprofen hypersensitivity, 379
Corticosteroid therapy
duration of corticosteroid therapy in giant cell arteritis, 361
Corticosteroids
efficacy of intraarticular steroids in OA: a double-blind study, 850
megadose corticosteroid therapy in SLE, 486
CPPD crystal deposition disease
Achilles tendinitis associated with chondrocalcinosis, 82
C-reactive protein
CRP: an immunoregulatory protein, *(editorial)* 272
interference by rheumatoid factor with the detection of C-reactive protein by the latex agglutination method, 279
Crithidia luciliae assay
Crithidia luciliae assay for antibodies to native DNA in procainamide-induced lupus erythematosus, 544
Crossover vs parallel design
gastrointestinal microbleeding: comparisons between benoxaprofen and other nonsteroidal antiinflammatory agents, suppl 36
Crystal arthropathy
calcium pyrophosphate crystal formation in aqueous solutions, 609
Cyclic AMP regulation
effects of benoxaprofen and indomethacin on platelet function and biochemistry, suppl 27

D

D-penicillamine
treatment complications of RA with gold, hydroxychloroquine, D-penicillamine, and levamisole, 825
Deep venous thrombosis
is there a lower incidence of deep venous thrombosis after joint replacement in RA, 551
Degenerative joint disease
long-term treatment of symptomatic OA with benoxaprofen. Double-blind comparison with aspirin and ibuprofen, suppl 89
Dermatomyositis
interstitial lung disease in polymyositis and dermatomyositis, 353
Dexamethasone
megadose corticosteroid therapy in SLE, 486
Diagnosis
SLE. Differences between patients who do, and who do not, fulfill classification criteria at the time of diagnosis, 831
Diagnostic criteria
SLE. Differences between patients who do, and who do not, fulfill classification criteria at the time of diagnosis, 831
Disseminated candidiasis
erosive candida arthritis in a patient with disseminated candidiasis, 911
Disturbed gait
disturbance of gait due to rheumatoid disease, 617

Dose response study
benoxaprofen — dose-range studies using quantitative thermography, suppl 48
Double-blind
double-blind comparison of aspirin and pirprofen in the treatment of RA, 865
Drug-induced disease
eosinophilic fasciitis syndrome after phenytoin (dilantin) therapy, 733
Drug-induced scleroderma
bleomycin-induced scleroderma, 651
Drug trial
benoxaprofen — dose-range studies using quantitative thermography, suppl 48

E

Echocardiography
cardiac abnormalities associated with rheumatoid arthritis: aortic insufficiency requiring valve replacement, 375
Education
continuing medical education in rheumatology of AHP professional laboratory personnel, *(editorial)* 1
some effects on house officers of an elective rheumatology rotation, 251
Efficacy
benoxaprofen administered once a day: determination of optimum dosage schedule, suppl 61
benoxaprofen: once a day vs twice a day in patients with RA or OA, suppl 68
crossover comparison of benoxaprofen and naproxen in OA, suppl 116
crossover comparison of benoxaprofen and naproxen in RA, suppl 109
Eosinophilia
relapsing eosinophilic perimyositis, 199
Eosinophilic fasciitis
eosinophilic fasciitis and aplastic anaemia, 730
eosinophilic fasciitis in association with thyroid disease: a report of three cases, 871
eosinophilic fasciitis: report of a case with features of connective tissue disease, 536
eosinophilic fasciitis syndrome after phenytoin (dilantin) therapy, 733
localized eosinophilic fasciitis in a child, 541
relapsing eosinophilic perimyositis, 199
Eosinophilic myositis
relapsing eosinophilic perimyositis, 199
Epidemiology
high frequency of HLA-B27 and Reiter's syndrome in Navajo Indians, 900
rheumatic disorders in the Swedish population and health care system, 877
Epidemiology of rheumatic fever
rheumatic fever and its sequels in children. A follow-up study with HLA analysis, 506
Evening dose
benoxaprofen administered once a day: determination of optimum dosage schedule, suppl 61
benoxaprofen: once a day vs twice a day in patients with RA or OA, suppl 68
Experimental arthritis
histopathogenesis of bovine serum albumin-induced arthritis in the rabbit, 13
immunologic mechanisms of the tube leukcyte adherence inhibition assay in adjuvant-induced disease in rats, 801
leukocyte adherence inhibition assay in adjuvant-induced disease in rats, 293

F

Familial Mediterranean fever
circulating immune complexes in recurrent polyserositis (familial Mediterranean fever, periodic disease), 886
Familial psoriasis
histocompatibility studies in psoriasis vulgaris: family studies, 445
Familial SLE
prevalence of Sm antibody in family members of Sm positive patients with SLE, 334
Family practice
do family practice residents in the United States learn clinical rheumatology? An important question, 923
need to train family practitioners in rheumatology, *(editorial)* 772
Felty's syndrome
inhibition of human bone marrow-granulocyte precursors by serum from patients with Felty's syndrome, 275
Fibroblast culture
collagen accumulation by dermal fibroblast cultures of patients with linear localized scleroderma, 130
Fibrosing alveolitis
polymyositis, breast carcinoma, and interstitial lung disease, 348
Follow-up
evaluation of a province-wide physiotherapy monitoring service in an arthritis control program, 387

G

Gastrointestinal involvement
gastrointestinal involvement in leukocytoclastic vasculitis and polyarteritis nodosa, 677

Gastrointestinal microbleeding
gastrointestinal microbleeding: comparisons between benoxaprofen and other nonsteroidal antiinflammatory agents, suppl 36
Gastrointestinal reactions
long-term safety of benoxaprofen, suppl 100
General practice
do family practice residents in the United States learn clinical rheumatology? An important question, 923
need to train family practitioners in rheumatology, *(editorial)* 772
Genetic heterogeneity
genetic heterogeneity in primary AS, 383
Genetics of psoriasis vulgaris
histocompatibility studies in psoriasis vulgaris: family studies, 445
Genu varus
osteoarthritic knees in a pre-Columbian ceramic figure, 381
Giant cell arteritis
duration of corticosteroid therapy in giant cell arteritis, 361
lack of consistent peripheral blood lymphocyte transformation responses in polymyalgia rheumatica and giant cell arteritis, 891
Glucocorticosteroids
benign joint effusion associated with glucocorticosteroid therapy, 245
Glycosaminoglycan
collagen accumulation by dermal fibroblast cultures of patients with linear localized scleroderma, 130
idiopathic chondrolysis — an immunopathologic study, 694
Gold
analysis of treatment terminations with gold and antimalarial compounds in RA, 153
treatment complications of RA with gold, hydroxychloroquine, D-penicillamine, and levamisole, 825
Gold-associated enterocolitis
fulminant colitis complicating gold therapy, 479
Gold distribution
pharmacokinetics of gold following administration of auranofin (SK&F D-39162) and myochrysine to rats, 820
Gold salts
efficacy and toxicity of retreatment with gold salts: a retrospective review of 25 cases, 474
Gold sodium thiomalate
pharmacokinetics of gold following administration of auranofin (SK&F D-39162) and myochrysine to rats, 820
Gonococcal
septic arthritis in a general hospital 1966-1977, 523
Gout
clinical significance of synovial fluid total hemolytic complement activity, 143
coexistence of gout and RA: case reports and a review of the literature, 316
pneumococcal arthritis complicating gout, 907
psoriatic arthropathy and crystal-induced synovitis, 213
some effects on house officers of an elective rheumatology rotation, 251
Graft-versus-host disease
progressive systemic sclerosis-like syndrome after bone marrow transplantation. Clinical, immunologic, and pathologic findings, 56
Group D streptococci
articular complications of jejunoileal bypass surgery, 65

H

Hairy cell leukemia
hairy cell leukemia and vasculitis, 895
Hematological aspects
SLE — hematological aspects, 395
Hemorrhagic sign
shoulder joint rupture in juvenile rheumatoid arthritis producing bicipital masses and a hemorrhagic sign, 563
Hemosiderin
synovial iron deposition in OA and RA, 30
Hemothorax
hemopneumothorax in SLE, 183
Hepatitis B antigen
hairy cell leukemia and vasculitis, 895
Histocompatibility antigens
high frequency of HLA-B27 and Reiter's syndrome in Navajo Indians, 900
HLA antigens
rheumatic fever and its sequels in children. A follow-up study with HLA analysis, 506
HLA in psoriatic arthritis
histocompatibility studies in psoriasis vugaris: family studies, 445
HLA-B5
combined use of HLA-B5 and the pathergy test as diagnostic markers of Behçet's disease in Turkey, 206
HLA-B27
genetic heterogeneity in primary AS, 383
reactive arthritis after Campylobacter jejuni enteritis, 531
HLA-B27 arthritis
HLA-B27, arthritis and *Yersinia enterocolitica* infection, 706

HLA-BW16
genetic heterogeneity in primary ankylosing spondylitis, 383
HLA-DRW4
RA and B lymphocyte alloantigen HLA-DRW4, 9
Horseradish peroxidase
antigen-induced arthritis: an immunohistologic study of articular tissue and synovial fluid using the horseradish peroxidase technique, 596
House officers
some effects on house officers of an elective rheumatology rotation, 251
Humoral
native type II collagen-induced arthritis in the rat. II. Relationship between the humoral immune response to native type II collagen and arthritis, 775
Humoral and cellular immunity
immunological abnormalities in psoriatic arthropathy, 438
Hypergammaglobulinemia
protein-caloric malnutrition and SLE, 178
Hyperparathyroidism
laboratory investigations in pseudogout patients and controls, 77
Hypertrophic osteoarthropathy
reversal of hypertrophic osteoarthropathy after chemotherapy for bronchogenic carcinoma, 93
Hydroxychloroquine
serum histidine in RA: changes induced by antirheumatic drug therapy, 71
treatment complications of RA with gold, hydroxychloroquine, D-penicillamine, and levamisole, 825
Hyposplenia
hyposplenia in a patient with SLE, 196

I

Ibuprofen
benoxaprofen in the treatment of OA — a comparison with ibuprofen, suppl 125
compartive study of benoxaprofen and ibuprofen in OA in general practice, suppl 132
long-term efficacy and safety of benoxaprofen: comparison with aspirin and ibuprofen in patients with active RA, suppl 76
long-term treatment of symptomatic OA with benoxaprofen. Double-blind comparison with aspirin and ibuprofen, suppl 89
lupus-like syndrome due to ibuprofen hypersensitivity, 379
Idiopathic thrombocytopenic purpura
localized scleroderma and idiopathic thrombocytopenia, 741
Immune arthritis
histopathogenesis of bovine serum albumin-induced arthritis in the rabbit, 13
Immune complexes
antigen-induced arthritis: an immunohistologic study of articular tissue and synovial fluid using the horseradish peroxidase technique, 596
immune complexes in progressive systemic sclerosis and mixed connective tissue disease, 301
immunoperoxidase staining of the choroid plexus in SLE, 645
Immunity
native type II collagen-induced arthritis in the rat. II. Relationship between the humoral immune response to native type II collagen and arthritis, 775
Immunoglobulin-secreting cells
immunoglobulin-secreting cells in SLE: correlation with disease activity, 807
Indomethacin
comparative study of benoxaprofen and ibuprofen in AS, suppl 139
comparison of naproxen, indomethacin and aspirin in OA, 711
effects of benoxaprofen and indomethacin on platelet function and biochemistry, suppl 27
Infections
pneumococcal arthritis complicating gout, 907
Infectious agent arthritis
infectious agent arthritis (IAA): a continuing diagnostic and therapeutic problem, 433
Infectious arthritis
infectious agent arthritis, *(editorial)* 43
Inflammatory cell function
comparative pharmacology of benoxaprofen, suppl 5
Inhibition assay
leukocyte adherence inhibition assay in adjuvant-induced disease in rats, 293
Interstitial lung diseases
interstitial lung disease in polymyositis and dermatomyositis, 353
Intestinal absorption
studies of the intestinal metabolism of oral gold, 633
Intestinal metabolism
studies of the intestinal metabolism of oral gold, 633
Intimal proliferation
progressive systemic sclerosis-like syndrome after bone marrow transplantation. Clinical, immunologic, and pathologic findings, 56

Intraarticular
efficacy of intraarticular steroids in OA: a double-blind study, 850
Intraarticular injection
trial of intraarticular orgotein, a superoxide dismutase, in experimentally-induced OA, 24
Intrabursal pressures
intrabursal pressures in the olecranon and prepatellar bursae, 570

J

Jaccoud's arthritis
Jaccoud's syndrome. A nosographic entity associated with SLE, 169
Jaccoud's syndrome
Jaccoud's syndrome. A nosographic entity associated with SLE, 169
Jejunoileal bypass
articular complications of jejunoileal bypass surgery, 65
Joint effusion
benign joint effusion associated with glucocorticosteroid therapy, 245
Joint erosions
follow-up study of polymyalgia rheumatica: evidence of chronic axial synovitis, 685
Joint fluid analysis
clinical significance of synovial fluid total hemolytic complement activity, 143
Joint fluid complement
clinical significance of synovial fluid total hemolytic complement activity, 143
Joint fluids
intraarticular fragmentation of a new Parker-Pearson synovial biopsy needle, 248
Joint imaging
comparison of four methods of analysis of ^{99m}Tc pyrophosphate uptake in rheumatoid arthritic joints, 461
Joint replacement
is there a lower incidence of deep venous thrombosis after joint replacement in RA, 551
Juvenile rheumatoid arthritis (JRA)
clinical progression of apparent JRA to SLE, 50
Clq binding in serum in JRA, 665
interlaboratory salicylate variability, 737
shoulder joint rupture in JRA producing bicipital masses and a hemorrhagic sign, 563
total and free salicylate concentrations in JRA, 717

K

Kinematics
dimension of collagen disorders, *(editorial)* 594
Knee joint
pathological plicae of the knee mistaken for arthritis, 573

L

Laboratory examinations
long-term safety of benoxaprofen, suppl 100
Laboratory personnel
continuing medical education in rheumatology of AHP professional laboratory personnel, *(editorial)* 1
Late mortality
late mortality in SLE – "The price we pay for control", 412
Latex fixation
Clq binding in serum in JRA, 665
Leukocyte adherence
leukocyte adherence inhibition assay in adjuvant-induced disease in rats, 293
Leukocyte adherence inhibition assay
immunologic mechanisms of the tube leukocyte adherence inhibition assay in adjuvant-induced disease in rats, 801
Leukocytoclastic vasculitis
gastrointestinal involvement in leukocytoclastic vasculitis and polyarteritis nodosa, 677
Levamisole
levamisole in RA – a double-blind study, 289
treatment complications of RA with gold, hydroxychloroquine, D-penicillamine, and levamisole, 825
Life table analysis
analysis of treatment terminations with gold and antimalarial compounds in RA, 153
Localized scleroderma
collagen accumulation by dermal fibroblast cultures of patients with linear localized scleroderma, 130
localized scleroderma and idiopathic thrombocytopenia, 741
Long-term efficacy
long-term efficacy and safety of benoxaprofen: comparison with aspirin and ibuprofen in patients with active RA, suppl 76
Lupus subsets
SLE. Differences between patients who do, and who do not, fulfill classification criteria at the time of diagnosis, 831
Lymphocyte markers
immunological abnormalities in psoriatic arthropathy, 438
Lymphocyte transformation
cell-mediated immunity in psoriatic arthritis, 218
lack of consistent peripheral blood lymphocyte transformation responses in polymyalgia rheumatica and giant cell arteritis, 891

M

Malignancy
polymyositis, breast carcinoma, and interstitial lung disease, 348

Megadosage
megadose corticosteroid therapy in SLE, 486

Metabolism
pharmacokinetic studies of benoxaprofen after therapeutic doses with a review of related pharmacokinetic and metabolic studies, suppl 12

Metastatic carcinomatous arthritis
metastatic carcinomatous arthritis and carcinoma of the lung, 98

Methotrexate
low dose pulse methotrexate therapy in rheumatoid arthritis, 501

Mixed connective tissue disease
immune complexes in progressive systemic sclerosis and mixed connective tissue disease, 301

Modulation
alternative pathway complement activation in RA, 453

Morning dose
benoxaprofen administered once a day: determination of optimum dosage schedule, suppl 61

Motherhood
SLE and motherhood, *(editorial)* 591

Mucopolysaccharides (glycosaminoglycans)
scleroderma skin—conflicting mucopolysaccharide data reflect stages in connective tissue maturation, 128

Muscle cultures
absence of cell-mediated cytotoxicity to muscle cultures in polymyositis, 671

Myalgias
relapsing eosinophilic perimyositis, 199

Myasthenia gravis
comparative clinical features in patients with myasthenia gravis with SLE, 838

N

Naproxen
comparison of naproxen, indomethacin and aspirin in OA, 711
crossover comparison of benoxaprofen and naproxen in OA, suppl 116
crossover comparison of benoxaprofen and naproxen in RA, suppl 109

Native type II collagen-induced arthritis
native type II collagen-induced arthritis in the rat. II. Relationship between the humoral immune response to native type II collagen and arthritis, 775

Navajo Indians
high frequency of HLA-B27 and Reiter's syndrome in Navajo Indians, 900

Neurological aspects
some ophthalmological and neurological aspects of SLE, 398

Neuropsychiatric
neuropsychiatric lupus, 325

^{99m}Tc methylene diphosphonate
investigation of the metabolic activity of bone in RA, 469

^{99m}Tc pyrophosphate
comparison of four methods of analysis of ^{99m}Tc pyrophosphate uptake in rheumatoid arthritic joints, 461
investigation of the metabolic activity of bone in RA, 469

$^{99m}Tc_2S_7$ colloid
comparative study of reticuloendothelial system pools of the normal and immunologically activated rabbit synovium with radiocolloids, 783

Non-gonococcal
septic arthritis in a general hospital 1966-1977, 523

Nonsteroidal antiinflammatory
benoxaprofen in the treatment of OA — a comparison with ibuprofen, suppl 125

Nonsteroidal antiinflammatory agents
gastrointestinal microbleeding: comparisons between benoxaprofen and other nonsteroidal antiinflammatory agents, suppl 36

Nonsteroidal antiinflammatory drugs
comparative pharmacology of benoxaprofen, suppl 5
comparative study of benoxaprofen and ibuprofen in OA in general practice, suppl 132
dose-range studies of benoxaprofen compared with placebo in patients with active RA, suppl 54
pharmacokinetics and acceptability of benoxaprofen following rectal administration, suppl 20

O

^{198}Au-colloid
comparative study of reticuloendothelial system pools of the normal and immunologically activated rabbit synovium with radiocolloids, 783

Ophthalmological aspects
some ophthalmological and neurological aspects of SLE, 398

Opportunistic infection
acute respiratory failure due to strongyloidiasis in polymyositis, 745

Oral chrysotherapy
oral chrysotherapy in RA: minimum effective dose, 160

Oral gold
studies of the intestinal metabolism of oral gold, 633

Orgotein
trial of intraarticular orgotein, a superoxide dismutase, in experimentally-induced OA, 24

Osteoarthritis (OA)
benoxaprofen administered once a day: determination of optimum dosage schedule, suppl 61
benoxaprofen in the treatment of OA — a comparison with ibuprofen, suppl 125
benoxaprofen: once a day vs twice a day in patients with RA or OA, suppl 68
comparative study of benoxaprofen and ibuprofen in OA in general practice, suppl 132
comparison of naproxen, indomethacin and aspirin in OA, 711
crossover comparison of benoxaprofen and naproxen in OA, suppl 116
efficacy of intraarticular steroids in OA: a double-blind study, 850
long-term treatment of symptomatic OA with benoxaprofen. Double-blind comparison with aspirin and ibuprofen, suppl 89
metabolic response during early stages of surgically-induced OA in mature beagles, 788
osteoarthritic knees in a pre-Columbian ceramic figure, 381
synovial iron deposition in OA and RA, 30
trial of intraarticular orgotein, a superoxide dismutase, in experimentally-induced OA, 24
variation in plasma and urinary inorganic phosphate and pyrophosphate in normal subjects and in patients with acromegaly or OA, 365

Overdosage
long-term safety of benoxaprofen, suppl 100

P

Pathergy
combined use of HLA-B5 and the pathergy test as diagnostic markers of Behçet's disease in Turkey, 206

Penicillamine
effect of oral zinc sulphate and penicillamine on zinc metabolism in patients with RA, 639
serum histidine in RA: changes induced by antirheumatic drug therapy, 71

Periodic disease
circulating immune complexes in recurrent polyserositis (familial Mediterranean fever, periodic disease), 886

Phagocytosis
comparative study of reticuloendothelial system pools of the normal and immunologically activated rabbit synovium with radiocolloids, 783

Pharmacokinetics
pharmacokinetic studies of benoxaprofen after therapeutic doses with a review of related pharmacokinetic and metabolic studies, suppl 12
pharmacokinetics and acceptability of benoxaprofen following rectal administration, suppl 20

Pharmacokinetics of gold
pharmacokinetics of gold following administration of auranofin (SK&F D-39162) and myochrysine to rats, 820

Phenytoin (dilantin)
eosinophilic fasciitis syndrome after phenytoin (dilantin) therapy, 733

Phosphate variation
variation in plasma and urinary inorganic phosphate and pyrophosphate in normal subjects and in patients with acromegaly or OA, 365

Physiotherapy
evaluation of a province-wide physiotherapy monitoring service in an arthritis control program, 387
in RA, *(editorial)* 269

Pirprofen
double-blind comparison of aspirin and pirprofen in the treatment of RA, 865

Plant thorn
plant thorn synovitis, 567

Plasmapheresis
thrombotic thrombocytopenic purpura in a girl with SLE, 727

Platelet function
effects of benoxaprofen and indomethacin on platelet function and biochemistry, suppl 27

Platelet growth factor
connective tissue activation XIX. Plasma levels of the CTAP-III platelet antigen in RA, 814

Pleural disease
hemopneumothorax in SLE, 183

Plicae
pathological plicae of the knee mistaken for arthritis, 573
sneaky plicae, *(editorial)* 437

Polyarteritis
hairy cell leukemia and vasculitis, 895

Polyarteritis nodosa
gastrointestinal involvement in leukocytoclastic vasculitis and polyarteritis nodosa, 677

Polyarthritis
intraarticular fragmentation of a new Parker-Pearson synovial biopsy needle, 248

Polymyalgia rheumatica
follow-up study of polymyalgia rheumatica: evidence of chronic axial synovitis, 685
lack of consistent peripheral blood lymphocyte transformation responses in polymyalgia rheumatica and giant cell arteritis, 891
Polymyositis
absence of cell-mediated cytotoxicity to muscle cultures in polymyositis, 671
acute respiratory failure due to strongyloidiasis in polymyositis, 745
interstitial lung disease in polymyositis and dermatomyositis, 353
polymyositis, breast carcinoma, and interstitial lung disease, 348
relapsing eosinophilic perimyositis, 199
Pneumothorax
hemopneumothorax in SLE, 183
Potassium permanganate effect on Congo red stain
amyloid in a patient with Reiter's syndrome — secondary or coincidental? Differentiation with potassium permanganate, 903
Pregnancy
problems associated with the management of pregnancies in patients with SLE, 37
SLE and motherhood, *(editorial)* 591
SLE and pregnancy, 624
Pregnancy and SLE
SLE and motherhood, *(editorial)* 591
Primary care
rheumatic disorders in the Swedish population and health care system, 877
Procainamide-induced lupus
Crithidia luciliae assay for antibodies to native DNA in procainamide-induced lupus erythematosus, 544
Progressive systemic sclerosis
immune complexes in progressive systemic sclerosis and mixed connective tissue disease, 301
progressive systemic sclerosis-like syndrome after bone marrow transplantation. Clinical, immunologic, and pathologic findings, 56
Prophylaxis of rheumatic fever
rheumatic fever and its sequels in children. A follow-up study with HLA analysis, 506
Prostaglandin synthesis
effects of benoxaprofen and indomethacin on platelet function and biochemistry, suppl 27
Prostaglandin synthetase inhibition
comparative pharmacology of benoxaprofen, suppl 5
Prostaglandins
and benoxaprofen, suppl 1
Protein-caloric malnutrition
protein-caloric malnutrition and SLE, 178
Proteinuria
antinuclear antibody-negative SLE: loss in body fluids, 547
Proteoglycan
idiopathic chondrolysis — an immunopathologic study, 694
Pseudogout
Achilles tendinitis associated with chondrocalcinosis, 82
laboratory investigations in pseudogout patients and controls, 77
psoriatic arthropathy and crystal-induced synovitis, 213
Psoriasis
cell-mediated immunity in psoriatic arthritis, 218
Psoriatic
psoriatic arthropathy and crystal-induced synovitis, 213
Psoriatic arthritis
cell-mediated immunity in psoriatic arthritis, 218
Psoriatic arthropathy
immunological abnormalities in psoriatic arthropathy, 438
Pulmonary amyloid
amyloid in a patient with Reiter's syndrome — secondary or coincidental? Differentiation with potassium permanganate, 903
Pulmonary function
pulmonary dysfunction in SLE: prevalence classification and correlation with other organ involvement, 187
Pulse therapy
low dose pulse methotrexate therapy in RA, 501
Pyrophosphate variation
variation in plasma and urinary inorganic phosphate and pyrophosphate in normal subjects and in patients with acromegaly or OA, 365

R

RA *(see rheumatoid arthritis)*
Radiocolloid
comparative study of reticuloendothelial system pools of the normal and immunologically activated rabbit synovium with radiocolloids, 783
Radionuclide imaging
joint imaging in regional migratory osteoporosis, 237
Reactive arthritis
reactive arthritis after *Campylobacter jejuni* enteritis, 531

Rectal administration
pharmacokinetics and acceptability of benoxaprofen following rectal administration, suppl 20
Recurrent polyarthritis
cell-mediated immune responses in patients with recurrent arthritis following rubella immunization, 225
Recurrent polyserositis
circulating immune complexes in recurrent polyserositis (familial Mediterranean fever, periodic disease), 886
Reduced lung volume
pulmonary dysfunction in SLE: prevalence classification and correlation with other organ involvement, 187
Regional migratory osteoporosis
joint imaging in regional migratory osteoporosis, 237
Reiter's disease
amyloid in a patient with Reiter's syndrome — secondary or coincidental? Differentiation with potassium permanganate, 903
Reiter's disease after *Salmonella typhimurium* enteritis, 211
Reiter's syndrome
cell-mediated immune responses of synovial mononuclear cells in Reiter's syndrome against ureaplasmal and chlamydial antigens, 751
high frequency of HLA-B27 and Reiter's syndrome in Navajo Indians, 900
Relapsing polychondritis
Wegener's granulomatosis and relapsing polychondritis: a case report, 915
Renal biopsy
pulmonary dysfunction in SLE: prevalence classification and correlation with other organ involvement, 187
Reticuloendothelial system
comparative study of reticuloendothelial system pools of the normal and immunologically activated rabbit synovium with radiocolloids, 783
Rheumatic disease
virus-activated suppressor cell hypothesis in experimental and human rheumatic diseases, 309
Rheumatic disorders
rheumatic disorders in the Swedish population and health care system, 877
Rheumatic fever
rheumatic fever and its sequels in children. A follow-up study with HLA analysis, 506
Rheumatic heart disease
rheumatic fever and its sequels in children. A follow-up study with HLA analysis, 506
Rheumatoid arthritis (RA)
alternative pathway complement activation in RA, 453
analysis of treatment terminations with gold and antimalarial compounds in RA, 153
benoxaprofen administered once a day: determination of optimum dosage schedule, suppl 61
benoxaprofen: once a day vs twice a day in patients with RA or OA, suppl 68
Beta-2-microglobulin in synovial fluid of RA, 555
cardiac abnormalities associated with RA: aortic insufficiency requiring valve replacement, 375
characteristics of RA in a male population, 559
clinical significance of synovial fluid total hemolytic complement activity, 143
coexistence of gout and RA: case reports and a review of the literature, 316
comparison of four methods of analysis of ^{99m}Tc pyrophosphate uptake in rheumatoid arthritic joints, 461
crossover comparison of benoxaprofen and naproxen in RA, suppl 109
disturbance of gait due to rheumatoid disease, 617
dose-range studies of benoxaprofen compared with placebo in patients with active RA, suppl 54
double-blind comparison of aspirin and pirprofen in the treatment of RA, 865
effect of oral zinc sulphate and penicillamine on zinc metabolism in patients with RA, 639
efficacy and toxicity of retreatment with gold salts: a retrospective review of 25 cases, 474
evaluation of a province-wide physiotherapy monitoring service in an arthritis control program, 387
fulminant colitis complicating gold therapy, 479
gastrointestinal microbleeding: comparisons between benoxaprofen and other nonsteroidal antiinflammatory agents, suppl 36
how does the mechanism of cartilage destruction influence surgical management of the RA joint? *(editorial)* 119
interference by rheumatoid factor with the detection of C-reactive protein by the latex agglutination method, 279
intraarticular fragmentation of a new Parker-Pearson synovial biopsy needle, 248
investigation of the metabolic activity of bone in RA, 469
is there a lower incidence of deep venous thrombosis after joint replacement in RA, 551
Jaccoud's syndrome. A nosographic entity associated with SLE, 169
levamisole in RA — a double-blind study, 289

long-term efficacy and safety of benoxaprofen: comparison with aspirin and ibuprofen in patients with active RA, suppl 76
low dose pulse methotrexate therapy in RA, 501
oral chrysotherapy in RA: minimum effective dose, 160
physiotherapy in RA, *(editorial)* 269
rheumatoid arthritis and B lymphocyte alloantigen HLA-DRW4, 9
serum histidine in RA: changes induced by antirheumatic drug therapy, 71
simultaneous assessment of four nonsteroidal antiinflammatory drugs in RA using a simple and rapid trial design, 857
Streptococcus MG-intermedius (Streptococcus milleri) septic arthritis in a patient with RA, 89
synovial iron deposition in OA and RA, 30
treatment complications of RA with gold, hydroxychloroquine, D-penicillamine, and levamisole, 825

Rheumatoid arthritis cartilage
how does the mechanism of cartilage destruction influence surgical management of the RA joint? *(editorial)* 119

Rheumatoid arthritis model
histopathogenesis of bovine serum albumin-induced arthritis in the rabbit, 13

Rheumatoid arthritis pathogenesis
how does the mechanism of cartilage destruction influence surgical management of the RA joint? *(editorial)* 119

Rheumatoid arthritis surgical management
how does the mechanism of cartilage destruction influence surgical management of the RA joint? *(editorial)* 119

Rheumatoid factor
interference by rheumatoid factor with the detection of C-reactive protein by the latex agglutination method, 279

Rheumatology
rheumatic disorders in the Swedish population and health care system, 877

Rheumatology literature
on the critical assessment and clinical applicability of the rheumatology literature, *(editorial)* 765

Rheumatology rotation
some effects on house officers of an elective rheumatology rotation, 251

Rheumatology training program
do family practice residents in the United States learn clinical rheumatology? An important question, 923
need to train family practitioners in rheumatology, *(editorial)* 772

Rubella arthritis
cell-mediated immune responses in patients with recurrent arthritis following rubella immunization, 225

Rubella immunization
cell-mediated immune responses in patients with recurrent arthritis following rubella immunization, 225

S

SAA amyloid protein
SAA amyloid protein levels in amyloid-prone chronic inflammatory disorders. Lack of association with amyloid disease, 724

Safety
crossover comparison of benoxaprofen and naproxen in OA, suppl 116
crossover comparison of benoxaprofen and naproxen in RA, suppl 109
long-term efficacy and safety of benoxaprofen: comparison with aspirin and ibuprofen in patients with active RA, suppl 76

Salicylate concentrations
interlaboratory salicylate variability, 737
total and free salicylate concentrations in JRA, 717

Salmonella typhimurium enteritis
Reiter's disease after *Salmonella typhimurium* enteritis, 211

Scintigraphy of joints
follow-up study of polymyalgia rheumatica: evidence of chronic axial synovitis, 685

Scleroderma
bleomycin-induced scleroderma, 651
localized eosinophilic fasciitis in a child, 541
localized scleroderma and idiopathic thrombocytopenia, 741
progressive systemic sclerosis-like syndrome after bone marrow transplantation. Clinical, immunologic, and pathologic findings, 56

Scleroderma skin
conflicting mucopolysaccharide data reflect stages in connective tissue maturation, 128

Septic arthritis
infectious agent arthritis, *(editorial)* 43
septic arthritis in a general hospital 1966-1977, 523
Streptococcus MG-intermedius (Streptococcus milleri) septic arthritis in a patient with RA, 89

Serum factors
inhibition of human bone marrow-granulocyte precursors by serum from patients with Felty's syndrome, 275

Serum histidine
serum histidine in RA: changes induced by antirheumatic drug therapy, 71

Shigella flexneri
high frequency of HLA-B27 and Reiter's syndrome in Navajo Indians, 900
Shulman's disease
localized eosinophilic fasciitis in a child, 541
Sjögren's syndrome
eosinophilic fasciitis: report of a case with features of connective tissue disease, 536
Skin
skin in individuals with lupus erythematosus, 392
Skin biopsy
pulmonary dysfunction in SLE: prevalence classification and correlation with other organ involvement, 187
Skin reactions
long-term safety of benoxaprofen, suppl 100
Skin toxicity
bleomycin-induced scleroderma, 651
SLE *(see systemic lupus erythematosus)*
SLE in the younger patient: survival studies, 515
Sm antibody
prevalence of Sm antibody in family members of Sm positive patients with SLE, 334
Spectrum of biological activity
comparative pharmacology of benoxaprofen, suppl 5
Spinal deformity
ankylosing spondylitis with unusual spinal deformity: a case report, 919
Streptococcus MG-intermedius
Streptococcus MG-intermedius (Streptococcus milleri) septic arthritis in a patient with RA, 89
Streptococcus milleri
Streptococcus MG-intermedius (Streptococcus milleri) septic arthritis in a patient with RA, 89
Strongyloidiasis
acute respiratory failure due to strongyloidiasis in polymyositis, 745
Subcutaneous bursae
intrabursal pressures in the olecranon and prepatellar bursae, 570
Subtalar joint
disturbance of gait due to rheumatoid disease, 617
Suicide
colchicine: its use as a suicidal drug by females, *(editorial)* 124
Superoxide dismutase
trial of intraarticular orgotein, a superoxide dismutase, in experimentally-induced OA, 24
Suppressor cells
virus-activated suppressor cell hypothesis in experimental and human rheumatic diseases, 309
Symposium
Introduction to the Symposium on systemic lupus erythematosus, Northeast Region Meeting, the American Rheumatism Association, Boston, MA, 1978, 390
Synovia
intraarticular fragmentation of a new Parker-Pearson synovial biopsy needle, 248
Synovial fluid
antigen-induced arthritis: an immunohistologic study of articular tissue and synovial fluid using the horseradish peroxidase technique, 596
Beta-2-microglobulin in synovial fluid of RA, 555
metabolic response during early stages of surgically-induced OA in mature beagles, 788
Systemic lupus erythematosus (SLE)
antinuclear antibody-negative SLE: loss in body fluids, 547
characterization and comparison of commercially available antinuclear antibody kits using single pattern index sera, 339
clinical progression of apparent JRA to SLE, 50
comparative clinical features in patients with myasthenia gravis with SLE, 838
hemopneumothorax in SLE, 183
hyposplenia in a patient with SLE, 196
immunoglobulin-secreting cells in SLE: correlation with disease activity, 807
immunoperoxidase staining of the choroid plexus in SLE, 645
Introduction to the Symposium on SLE, Northeast Region Meeting, the American Rheumatism Association, Boston, MA, 1978, 390
Jaccoud's syndrome. A nosographic entity associated with SLE, 169
late mortality in SLE – "The price we pay for control", 412
lupus-like syndrome due to ibuprofen hypersensitivity, 379
megadose corticosteroid therapy in SLE, 486
neuropsychiatric lupus, 325
predictive value of anti-DNA antibody and selected laboratory studies in SLE, 843
problems associated with the management of pregnancies in patients with SLE, 37
protein-caloric malnutrition and SLE, 178
pulmonary dysfunction in SLE prevalence classification and correlation with other organ involvement, 187
skin in individuals with lupus erythematosus, 392
SLE and motherhood, 591
SLE and pregnancy, 624
SLE. Differences between patients who do, and who do not, fulfill classification criteria at the time of diagnosis, 831
SLE – hematological aspects, 395

SLE in the younger patient: survival studies, 515
some ophthalmological and neurological aspects of SLE, 398
thrombotic thrombocytopenic purpura in a girl with SLE, 727
SLE outcome
neuropsychiatric lupus, 325
SLE — prognosis
SLE in the younger patient: survival studies, 515

T

Talalgia
Achilles tendinitis associated with chondrocalcinosis, 82
Thrombotic thrombocytopenic purpura
thrombotic thrombocytopenic purpura in a girl with SLE, 727
Thyroid disease
eosinophilic fasciitis in association with thyroid disease: a report of three cases, 871
Transient osteoporosis
joint imaging in regional migratory osteoporosis, 237

U

Ureaplasmal antigen
cell-mediated immune responses of synovial mononuclear cells in Reiter's syndrome against ureaplasmal and chlamydial antigens, 751
Utilization of medical care
rheumatic disorders in the Swedish population and health care system, 877

V

Vasculitis
hairy cell leukemia and vasculitis, 895
Viral arthritis
Chikungunya viral arthropathy: a clinical description, 231
Virus
virus-activated suppressor cell hypothesis in experimental and human rheumatic diseases, 309

W

Wegener's granulomatosis
Wegener's granulomatosis and relapsing polychondritis: a case report, 915

Y

Yersinia enterocolitica
HLA-B27, arthritis and *Yersinia enterocolitica* infection, 706

Z

Zinc metabolism
effect of oral zinc sulphate and penicillamine on zinc metabolism in patients with RA, 639
Zinc sulphate
effect of oral zinc sulphate and penicillamine on zinc metabolism in patients with RA, 639
